Lr.No.APERC/Secy/JD(Tariff)/AD/T&Ec/T-55/SRTPV/D.No. 55/26,dt:06.02.2026

Sir,

Sub: APERC - Energy Settlement and Billing for Solar Rooftop (SRT)
Prosumers - Directions - Issued -Reg

- Ref: 1. [Regulation 04 of 2023](#) - APERC (The Grid Interactive Solar Rooftop Photovoltaic System under Gross/Net metering) Regulation 2023.
2. [Regulation 10 of 2025](#) - First Amendment to the APERC The Grid Interactive Solar Rooftop Photovoltaic Systems under Net/Gross Metering Regulation 2023 Regulation No. 4 of 2023

According to Clauses 16.1 and 16.5 of APERC SRTPV Regulation 4 of 2023, energy settlement and billing shall be carried out monthly. However, as evident from the number of complaints received by the Commission during the public hearings on RST filings for FY 2026-27 and subsequently, energy settlement and billing are not being carried out on a monthly basis for Solar Rooftop (SRT) prosumers by the DISCOMs, as stipulated in the Regulation, and that consumers are not being paid for the excess energy exported to the grid in accordance with Clause 16.5. This constitutes non-compliance with the Commission's Regulations.

Therefore, the DISCOMs are directed to implement energy settlement and billing for SRT prosumers covered under Regulation 4 of 2023 on a **monthly basis forthwith**, strictly in accordance with Clauses 16.1 and 16.5 of the Regulation, and to ensure that payments for excess energy exported by prosumers are made via electronic transfer to the respective consumers.

Failure to comply with the above directions will be viewed very seriously

(By order of the Hon'ble Commission)

Yours faithfully,

Commission Secretary i/c

To
